EXPERIENCE

Mern Satck developer

07/24 -Present

Techmire Solutions

- Built modular MERN stack apps using MVC architecture and RESTful APIs
- Integrated JWT and Firebase for secure authentication and real-time data
- Optimized performance with server-side rendering, lazy loading, and dynamic imports
- Managed global state using Zustand and Context API for efficient data handling

FREELANCE SOFTWARE SOLUTIONS

Italian Clothing Store | [Link](#)

Multilingual bridal fashion website allowing user to explore styles and book design appointments. Focused on clean UI, global accessibility, and future features like user dashboard and custom preview. Deployment completed, core functionality is live while enhancements are underway.

Techmire Solution Portal | [Link](#)

Built a secure internal portal for payroll automation and employee data processing. Includes employee registration and restricted admin access. Superuser Access: tmsportal123 (restricted). Deploy with core functionalities while undergoing feature expansion.

Mehfooz Travels | [Link](#)

Developed a user-friendly website for Hajj and Umrah package bookings. Enhanced accessibility for pilgrims with clear navigation and modern UI. Fully deployed with mobile responsiveness and updated content.
